Section 5(h). Wellness and Other Special Features

Diabetes Management Program

The Diabetes Management Program is a program to help members with diabetes manage their condition. All members with type 1 and type 2 diabetes, including those for whom Medicare is primary, are eligible for this program. You will receive a free glucose meter and have unlimited test strips and lancets shipped directly to you. Automated reordering is based on your usage. Personalized coaching and support are also provided. The program offers live interventions triggered by acute alerts based on your glucose meter test results. Member support is offered 24/7/365. For more information go to www.fepblue.org/diabetes.
